Report of the COVID-19 infection at our company

Thursday, March. 11, two employees working at our Nagoya Plant (in Miyoshi-city, Aichi) had tested positive for COVID-19.

We have been responding adequately under the instructions of the public health center having jurisdiction over this area.

We will continue our efforts to prevent the spread of COVID-19 in cooperation with the public health center and in accordance with the guidelines set by the Japanese government and local government.
