Report of the COVID-19 infection at our company

Wednesday, August 3, one employee working at our Nagoya Plant (in Miyoshi-city, Aichi) and one employee working at our Osaka Office (in Suita-city, Osaka) had tested positive for COVID-19.

We have been responding adequately.

We will continue our efforts to prevent the spread of COVID-19 in cooperation with the public health center and in accordance with the guidelines set by the Japanese government and local government.
